

DLE Darkside

LITENET presents a beautifully designed recessed mounted wall washer recessed mounted downlight fitting for commercial applications. The DLE Darkside range of recessed mounted downlights are designed to be used as a wall washer lighting application. To maximise heat dissipation the Flow is constructed with premium-grade aluminium. This downlight is powder coated in a white finish. The S Lite Kinetix is an architectural range of fittings that are designed and constructed to suit the indoor environment which accentuates comfort and low glare. The Flow is available in Black or white finish.

Options of Non-dimmable driver or DALI dim driver options are available.

50,000 hour 5-year replacement warranty
